3. The repair of the Jodi tank was considered by the Dewan to be urgent in 1875 that the Ryots was attached for realizing the cost of repair The urgency has disappeared now ceased & it is the Joddars who now ask for the repair of the tank. Rs 277 paid by the Joddars is now in deposit & the South Dewan is bound to repair the tank or to refund the amount to the Joddars

The balance of Rs 52 still said to be due from the Joddars may be waived for the reason - if considered valid - that the simple interest on Rs 168 (collected in 1879) at x 3 pc per 23 years exceeds Rs 100 & that the Joddars shd be given

restored to them. Vide this Office No. 244 dated 26th September 1879 to the Secretary to the Chief Commissioner, Revenue Department. They have not yet paid the amount in full. After a long correspondence between this Office and the Civil Engineer was ascertained that only Rs. 248-3-11 were recovered towards the cost of repairs.

2- In May 1893 the Executive Engineer was asked to have an estimate prepared for what was absolutely needed for the tank and to send an estimate for Rs. 329/- But the work is not started as the Contractors have not as yet paid the balance of Rs. 80-12-1- Vide this Office No. 226 dated 15th August 1894 to the Chief Secretary.

by the Jodidars (Vide letter No D 1544 dated 21 June 1895), but the Jodidars' explanation shows that the village under Government management was restored after furnishing a security for Rs 37-6-3 from Shanbhog Ramiahha, as that sum fell short to make up the contribution of Rs 277/- originally fixed to be recovered from them. With a view to ascertain the exact amount to be recovered, a statement was prepared in the Taluk. It discloses that the net amount credited towards contribution comes to Rs 268-11-2 and the recovery of Rs-a-p 60-4-10 is called for in order to start the restoration of the Jodi tank for which an estimate for Rs 329/- has

has been got ready. The Foudidars have now paid Rs 8-4-10 (which makes up Rs 277/ including Rs 268-11-2 given already) and refused to pay the difference (viz 60-4-10-8-4-10 or Rs 52/-) stating that the delay in executing the tank repairs led to the increase in the estimated amount from Rs 277/- to 329/-

2. The Amildar has been called upon to explain the cause of difference between the amount shown to have been collected up * 248-3- to end of September 1879 and that now arrived * 268-1 at by him.

Village tank the neglected
State of which was rendered
dangerous & the just
tanks below it, the Village
was attached in 1874
for the recovery of the
cost of repair estimated
at Rs 270. A sum of
Rs 168 having been
recovered upto Septr 1879.
& the Jowdars having
given Security for the
balance the Village
was released from attachment
in Septr 1879.

The matter appears
to have been lost

on the petition of the
Jodidars, a revised
estimate for Rs 329
was sanctioned by
the Govt and the
Jodidars were asked
to pay the difference
between the said amount
& the amount collected.
The Jodidars have
up to date paid Rs
277 and decline to
pay the balance of
Rs 52 on the ground
that, had the repair

been started in due time, the additional amount would have been unnecessary.

2. The Govt decide, in the special circumstances to waive the claim for the balance of £572 and that the dried tank be forthwith repaired, if the repair does not involve a larger amount than that estimated for in 1895. If however a larger amount is required, the amount so Received from the Jordans shd be refunded & them leaving them to carry out the repairs

utilize the money which has been granted for repairing the tank - This should be done forthwith

If the repairs are executed a report regarding the condition of the tank must be submitted.
